WHO IS BEHIND THE PROJECT

Jérôme Robert - Founder of Aionera

Multi-entrepreneur and investor, Jérôme begun his first successes in Digital & Marketing 10 years ago, then followed successes in Algorithmic Trading 4 years ago.

In this Algorithmic Trading market, he and his associates launched a comparator that enables investors to find out how to analyze projects and invest by measuring the risks involved.

Jérôme's aim was to offer a product over which he could have control, and over which he could manage the risks.

This is how Aionera was launched, after 1 year of development and searching for the right partners, with the objective of making Aionera a must-have product by creating additional income for its customers, while giving each customer autonomy over their own risk management thanks to the total freedom of managing their funds.

TRADING EXPLAINED

A unique way of trading:

A technology only used by the **1%** most profitable trading bots on the **Forex Market** (24h/5d).

Our bot use **HFT technology** (High Frequency Trading) in addition to the **Arbitrage technology** and **Regular trading** to trade directly through the market by having a **fast connection** with liquidity providers helped by the brokerage.

Time matters here, a millisecond more and your trade is losing. The war on the trading market used to be on strategies, not anymore. **Now you have to be the fastest to be the best.**

You understand, our bot is the **fastest to detect and execute** any opportunities on the market.

That's why we choose the most volatile market : **GOLD MARKET**
